FOREWORD

Statistics on Social Work Education in the United States is published annually by the Council on Social Work Education. Data are provided by CSWE accredited baccalaureate and masters degree programs of social work education. Data on the number of students receiving degrees cover the academic year 1990-91. All other data are reported as of November 1, 1991.

Special appreciation is extended to Todd Lennon who compiled and analyzed the data and wrote this report. I also would like to express my appreciation to the program deans, directors, faculty and staff for their cooperation in completing the survey instruments.

June 1, 1992

Donald W. Beless
Executive Director

INTRODUCTION

This report contains the results of a survey of all baccalaureate and masters degree programs in social work accredited by the Council on Social Work Education in September 1991. At the time the data were collected there were 515 social work degree programs either fully accredited or in candidacy status for accreditation. Of those programs, 156 were jointly administered masters/baccalaureate programs, 38 were masters degree programs, and 321 were baccalaureate degree programs. There were 12 masters programs and 25 baccalaureate programs in candidacy. Forty-nine doctoral programs affiliated with masters programs were also surveyed. Lists of accredited baccalaureate and graduate social work degree programs may be found in Appendices B and C.

On September 27, 1991 one survey for faculty and program data and one to three surveys for student data were sent to all accredited programs, depending upon the administration and accreditation status of the program. The surveys used were as follows:

Schedule I - Social Work Education Programs and Faculty
Schedule II - Statistics on Baccalaureate Social Work Education Programs
Schedule III - Statistics on Masters of Social Work Education Programs
Schedule IV - Statistics on Doctoral Social Work Education Programs
Schedule V - Statistics on Social Work Education Programs in Candidacy

Although deadline dates of November 1, 1991 (for Schedule I) and November 15, 1991 were requested, the number of responses received by those dates was not sufficient to begin aggregation at that time. Consequently, schedules were accepted until late February 1992.

Response rates to the schedules varied (see Table 1). Schedule I was sent to all social work programs, regardless of their accreditation status. Jointly administered baccalaureate/masters programs were sent one copy of Schedule I. Of the 438 programs sent Schedule I, 397 (90.6%) returned it. High response rates were recorded for each of the accredited programs' schedules and a majority of candidate programs responded to Scheduie V. This represents the best response for this survey in recent years. However, not every program returned both faculty and student data. Despite the extended period of accepting responses and repeated appeals for returns this year, there has not been a 100% response from programs since 1982.

TABLE 1

Number of Responses to 1991 Survey Schedules I - V

Schedule Sent	Number Sent	Number Received	Percent Received
Schedule I	438	397	90.6
Schedule II	375	344	91.7
Schedule III	103	101	98.1
Schedule IV	49	49	100.0
Schedule V	37	32	86.5

Many factors have influenced the presentation of this report. Due to rounding decimals to one or two places, percent totals or sub-totals within tables may not reflect the exact sum of the numbers preceding them. Also, totals in all tables may not correspond with one another due to the variation in response rates. In many cases, programs chose not to respond to a particular item in the survey, or incorrect data were received and requests for corrections went unanswered.

SOCIAL WORK EDUCATION PROGRAMS

Geographic Distribution

The geographic distribution of social work education programs and faculty remains virtually unchanged from last year (see Table 2). The midwestern states (Region 5) have the highest concentration of social work education programs and faculty, reporting the higher numbers at the baccalaureate and joint masters/baccalaureate levels. Stand-alone graduate programs are more spread out across the nation. The majority of programs are located in the eastern half of the nation (Regions 1-5, 69.8% of programs). Although the number of baccalaureate programs is more than two times that of graduate and joint programs, there are more than twice as many faculty in graduate and joint appointments than in baccalaureate appointments.

TABLE 2

Social Work Education Programs and Faculty, by Geographic Region and Level of Program*

Region**	Level of Program							
	Graduate Only		Joint		Baccalaureate		Total	
	Programs	Faculty	Programs	Faculty	Programs	Faculty	Programs	Faculty
1	5	228	4	79	19	101	28	408

6	4	114	8	206	28	137	40	457
7	1	50	5	150	32	127	38	327
8	2	69	3	42	9	47	14	158
9	2	112	10	276	7	36	19	424
10	1	45	2	88	6	28	9	161
Total	34	1,275	74	2,289	289	1,430	397	4,994

* Column totals may not correspond between tables within this report due to variance in response rates.

** The regional divisions in past years' statistics were identified as regions established by the U.S. Department of Health and Human Services. We could not verify these divisions with the Department this year, but in the interest of continuity they are continued this year. The states included in each region are:

Region 1 - Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont
Region 2 - New Jersey, New York, Puerto Rico, Virgin Islands
Region 3 - Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, West Virginia
Region 4 - Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee
Region 5 - Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin
Region 6 - Arkansas, Louisiana, New Mexico, Oklahoma, Texas
Region 7 - Iowa, Kansas, Missouri, Nebraska
Region 8 - Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming
Region 9 - Arizona, California, Hawaii, Nevada
Region 10 - Alaska, Idaho, Oregon, Washington

Institutional Characteristics

Table 3 shows that the majority of social work education programs are located in state institutions. State institutions also employ 62.1% of all social work faculty. Only 4 programs are located in other public institutions. Church-related institutions house most of the programs located in private colleges or universities. Of all social work programs in private institutions, 117 (66.1%) are church-related baccalaureate programs. Most of these programs are very small in size; their 434 faculty are very spread out as compared with the remaining 60 private institutions' 1,335 faculty members. The institutional auspices of colleges and universities with social work degree programs have not changed significantly from year to year.

TABLE 3

Social Work Education Programs and Faculty, by Institutional Auspices and Level of Program*

Institutional Auspices	Level of Program							
	Graduate Only		Joint		Baccalaureate		Total	
	Programs	Faculty	Programs	Faculty	Programs	Faculty	Programs	Faculty
Public								
State	15	478	58	1,773	143	851	216	3,102
Other	1	104	0	0	3	19	4	123
Private								
Church-related	5	180	7	182	117	434	129	796
Other	13	513	9	334	26	126	48	973
Total	34	1,275	74	2,289	289	1,430	397	4,994

* Column totals may not correspond between tables within this report due to variance in response rates.

As noted in Table 4, graduate and joint programs are most likely to be found in institutions with more than 10,000 full-time students. Conversely, stand-alone baccalaureate programs are most likely to be found in institutions with full-time enrollments of less than 10,000. At the baccalaureate level, of those institutions with less than 2,000 students, 83.3% are located in private, church-related institutions. The other stand-alone baccalaureate programs are spread out among institutions with larger enrollments. The distribution of programs across institutions of various sizes has not changed since last year.

TABLE 4

Social Work Education Programs, by Size of College/University Enrollment and Level of Program*

Full-time Enrollment	Level of Program			
	Graduate Only	Joint	Baccalaureate	Total
Under 2,000	3	2	96	101
2,000 - 4,999	4	5	60	69
5,000 - 9,999	6	9	59	74
10,000 - 19,999	8	19	54	81
20,000 and over	13	39	20	72
Total	34	74	289	397

* Column totals may not correspond between tables within this report due to variance in response rates.

The predominant ethnic/gender identification of the colleges and universities with social work degree programs continues to be "non-ethnic, coeducational" (87.4%). Social work education programs in "black, coeducational" institutions make up 5.5% of all programs and non-ethnic, women's institutions house 4.5% of all programs. One institution was identified as "non-ethnic, men's," 2 were "black, women's," and 7 were "other ethnic, coeducational."

Number of Faculty

Baccalaureate programs typically have faculties numbering less than 10 (268 of 289 in Table 5). There are no baccalaureate programs with more than 30 faculty. Larger faculties are characteristic of joint masters/baccalaureate and stand-alone graduate programs. The mean number of faculty members in graduate and joint programs is 33.97 and the mean number of faculty members in baccalaureate programs is 4.95. These means are slightly smaller than last year with a difference of 0.33 for graduate and joint and 0.25 for baccalaureate.

TABLE 5

Social Work Education Programs, by Number of Faculty and Level of Program*

Number of Faculty	Level of Program			
	Graduate Only	Joint	Baccalaureate	Total
Less than 10	2	2	268	272
10 - 19	3	19	19	41
20 - 29	8	22	2	32
30 - 39	6	10	0	16
40 - 49	3	9	0	12
50 - 59	6	3	0	9
60 and over	5	7	0	12
Total	33	72	289	394

* Column totals may not correspond between tables within this report due to variance in response rates.

SOCIAL WORK FACULTY

Each program reported faculty data on Schedule I. Although programs reported on 4,994 faculty members, the data received on many faculty members were incomplete or inaccurate. These faulty cases were not included in the following tables, so none of the tables will show information on all of the faculty members reported by programs. Likewise, care should be taken when comparing the data in the various tables because of the various response rates.

One part of the survey asked programs to report the percentage of a full-time equivalent (FTE) each faculty member spent in social work and other institutional responsibilities. For this report, "full-time" refers to those faculty members who spend 50% or more of their time in the social work program. This distinction should be kept in mind while reviewing Tables 6 and 8 and Tables 18 through 24.

Time in Social Work Education

Of all social work faculty, 62% spend 100% of their time in the social work program. An additional 9.1% of full-time social work faculty spend 50 - 99% of their time in social work. Table 6 shows that a greater percentage of faculty in baccalaureate programs hold full-time appointments in social work than do their colleagues in graduate programs. This indicates that graduate programs are more likely to use part-time faculty than are baccalaureate programs. A very small percentage (3.8%) of faculty holding full-time college/university appointments spend less than 50% of their time in social work.

TABLE 6

Faculty, by Type of College/University Appointment, Level of Program, and Percent of Time in Social Work Education*[1]

Percent of Time to Social Work	Type of College/University Appointment	Level of Program							
		Graduate Only		Joint		Baccalaureate		Total	
		#	%	#	%	#	%	#	%
100%	Full-time	642	57.1	1,330	63.4	901	63.7	2,873	62.0
50 - 99%	Full-time	93	8.3	168	8.0	160	11.3	421	9.1
25 - 49%	Full-time	35	3.1	17	0.8	50	3.5	102	2.2
	Part-time	127	11.3	235	11.2	180	12.7	542	11.7
Less than 25%	Full-time	24	2.1	22	1.0	26	1.8	72	1.6
	Part-time	204	18.1	326	15.5	97	6.9	627	13.5
Total		1,125	100.0	2,098	100.0	1,414	100.0	4,637	100.0

* Column totals may not correspond between tables within this report due to variance in response rates.

[1] Because of the definition of "full-time" used in this report, this year's Table 6 presents its data slightly differently than did previous years' versions. Previous years' reports showed that faculty who spent 50-99% of their time in social work may hold part-time college/university appointments. Since the definition of "full-time" for this report includes faculty spending 50% or more time in social work, the "part-time" line cannot be included.

Table 7 displays the distribution of time faculty members are assigned to the baccalaureate and graduate levels in jointly administered social work programs. This table indicates that joint programs devote more faculty to the graduate program than to the baccalaureate program. Over half of the faculty members in such programs spend all of their time in the graduate program. This percentage shows a decrease of 1.6% from last year. There is a corresponding increase in faculty who spend some time in the baccalaureate program. All of the changes noted, however, are negligible.

TABLE 7

Faculty in Jointly Administered Programs,
by Time Assigned to Graduate and Baccalaureate Social Work Education 1990 - 1991*

Time Assigned to Graduate and Baccalaureate Social Work Education	1990		1991		% Change
	#	%	#	%	
All to Graduate	1,112	54.7	1,093	53.1	-1.6
Most to Graduate	340	16.7	367	17.8	1.1
Equal to Both	225	11.1	218	10.6	-0.5
Most to Baccalaureate	126	6.2	142	6.9	0.7
All to Baccalaureate	231	11.4	239	11.6	0.2
Total	2,034	100.0	2,059	100.0	

* Column totals may not correspond between tables within this report due to variance in response rates.

Forty-nine of the graduate programs also offer a doctoral program. Table 8 shows how much time faculty members in those programs spend in the doctoral program. Only 7.2% of graduate faculty spend more than half of their time in the doctoral program, while 62.9% spend none. Faculty members who teach part-time in the doctoral program make up 29.8% the faculty in programs where a doctorate is offered. These proportions are comparable to those reported last year.

TABLE 8

Full-time Faculty in Programs Offering Doctoral Social Work Education,
by Percentage of Time Assigned to Doctoral Level*

Percent of Time Assigned to Doctoral Level	#	%
None	812	62.9
1 - 24%	265	20.5
25 - 49%	120	9.3
50% and over	93	7.2
Total	1,290	100.0

* Column totals may not correspond between tables within this report due to variance in response rates.

Demographic Characteristics

The following tables display various demographic characteristics of social work faculty, including age, gender, ethnicity, highest earned degree, rank, primary responsibility within the social work program, tenure, and salary. To maintain continuity with previous years' statistics, data for faculty assigned to jointly administered masters/baccalaureate programs have been aggregated with those of stand-alone masters program faculty.

Gender and Ethnicity

The distribution of male and female faculty members by age groups is displayed in Table 9. The modal age groups for males and females at each level remain the same as last year. Males are more likely to be older than females at each level. The mean ages for males are 50.2 (graduate/joint) and 47.5 (baccalaureate). The mean graduate/joint female faculty member's age is 47.3, while the mean baccalaureate female faculty member's age is 44.9. On average, baccalaureate faculty members are about three years younger than their counterparts at the graduate/joint level.

TABLE 9

Faculty, by Age, Gender, and Level of Program*

Level of Program	Age	Gender					
		Male		Female		Total	
		#	%	#	%	#	%
Graduate and Joint	Under 35	52	3.6	75	4.1	127	3.9
	35 - 44	405	28.0	697	38.6	1,102	33.9
	45 - 54	505	35.0	675	37.3	1,180	36.3
	55 and Older	482	33.4	361	20.0	843	25.9
	Total	1,444	100.0	1,808	100.0	3,252	100.0
Baccalaureate	Under 35	25	4.4	67	8.3	92	6.6
	35 - 44	185	32.3	358	44.1	543	39.2
	45 - 54	247	43.1	285	35.1	532	38.4
	55 and Older	116	20.2	102	12.6	218	15.7
	Total	573	100.0	812	100.0	1,385	100.0

* Column totals may not correspond between tables within this report due to variance in response rates.

Table 10 displays the ethnicity of male and female social work education faculty members. The ethnic categories used in the survey were based on previous years' surveys and the membership categories of the Council. "Foreign" faculty are those faculty who are in the United States without a resident visa. There was a slight decrease from last year in the percentage of ethnic minority faculty at the graduate/joint level. Conversely, there was a slight increase in the percentage of minorities at the baccalaureate level. African Americans continue to be the largest minority group, comprising 61.8% of all minorities at the graduate/joint level and 70.2% at the baccalaureate level. The percentage of male graduate/joint faculty members who are ethnic minorities is virtually the same as that of the women. However, 9.4 percentage points separate male and female minority faculty members at the baccalaureate level. Nearly one-third of female baccalaureate faculty members are minorities.

TABLE 10

Faculty, by Ethnicity, Gender, and Level of Program*

Level of Program	Ethnicity	Gender					
		Male		Female		Total	
		#	%	#	%	#	%
Graduate and Joint	African American	177	12.0	276	14.6	453	13.5

	Total	596	100.0	836	100.0	1,432	100.0

* Column totals may not correspond between tables within this report due to variance in response rates.

Educational Attainment

The educational attainment of male and female social work education faculty members is displayed in Table 11. The proportions noted here are consistent with those of last year. Graduate/joint faculty are more likely to hold doctorates than are their baccalaureate-level counterparts. Comparable percentages of graduate/joint faculty hold masters or doctoral degrees in social work as their highest earned degree. Almost three times as many baccalaureate faculty members hold a masters in social work as their highest degree, than do those with a doctorate in social work. The masters degree in social work is the highest earned degree for over half of baccalaureate faculty. At both levels, men are more likely than women to hold a doctorate. Of all faculty who hold doctorates, those holding doctorates in social work are in the majority. Small proportions of social work faculty hold degrees in medicine or law or other degree categories than masters or doctorates. Likewise, very few social work faculty nold masters degrees in fields other than social work as their highest earned degree.

TABLE 11

Faculty, by Highest Earned Degree, Gender, and Level of Program*

Level of Program	Highest Earned Degree	Gender					
		Male		Female		Total

Table 12 displays the educational attainment of social work education faculty members by ethnic categories. The most reliable percentages displayed here are under the African American and White categories--the other minority categories have relatively few cases counted and should be interpreted with caution. Keeping in mind the small numbers in most of the minority categories, there were no significant changes from last year in the proportions noted within this table. Asian Americans continue to have the highest percentage of doctorates in social work at both levels. Most of the Puerto Ricans and Native Americans teaching at the baccalaureate level have masters degrees in social work as their highest earned degree.

Almost all social work faculty hold masters degrees in social work (96.6%). Table 13 shows that those faculty members who do not have masters degrees in social work usually hold doctorates in fields other than social work.

Rank

Table 14 displays the distribution of rank among social work education faculty. At the graduate/joint level, faculty members are fairly evenly distributed between the three highest ranks, less so between the other ranks. However, assistant professors make up the highest percentage of females and full professors are most frequently male. Assistant professors also are the most frequent among female baccalaureate faculty members. Males at the baccalaureate level are most frequently associate professors. Although graduate/joint faculty at the ranks of full professor, associate professor, and assistant professor are evenly distributed, baccalaureate faculty become less frequent as the level of rank increases. Women are more likely to hold the rank of instructor or lecturer at both the graduate/joint and baccalaureate levels than are men.

The educational attainment of faculty and their rank is displayed in Table 15. Full professors typically have doctorates. At the graduate/joint level, all three higher ranks have mostly doctorates, while the lower three categories are mostly masters degrees in social work. At the baccalaureate level, doctorates are most frequent at the full professor and associate levels. The majority of assistant professors and lower hold masters degrees in social work.

Table 16 displays the distribution of rank by ethnicity. Again, due to the small number of minority faculty members, caution should be taken in interpreting these percentages. At both levels, Asian Americans have the highest percentage of full professors among minority faculty. As noted in Table 12, Asian Americans also have the highest percentage of doctorates.

Primary Responsibility

Tables 17 and 18 show the distribution of the primary responsibility of social work faculty within the social work program. Those faculty members with formal administrative titles are included under those specific titles. For those faculty without formal administrative titles, programs were asked to report the time individuals spent in classroom teaching, field instruction, field liaison responsibilities, administration, and other social work responsibilities. No definitions were given for these categories. For this report, "primary responsibility" is defined as that responsibility that receives the greatest amount of the faculty member's time. Those faculty members who spend equal amounts of time in classroom and field instruction or liaison activities were combined as were those who spend most of their time in field activities. Individuals who spend most of their time in "other" social work responsibilities or did not specify a formal administrative title but spend most of their time in administration are listed as "other."

Table 17 displays the primary responsibilities of social work faculty. This year there was a slight increase in the percent of graduate/joint faculty spending the majority of their time with teaching responsibilities. At the baccalaureate level, 70.9% of the faculty spend most of their time teaching. This reflects a slight increase as well. At both levels, most of these faculty primarily are classroom teachers. There is no significant difference between males and females in this characteristic. More males than females are primarily responsible as dean/director of graduate/joint or baccalaureate programs. On the other hand, there are more females who are classroom teachers at each level. Interestingly, although males outnumber females as dean/directors, more females are assigned administrative titles.

TABLE 17

Faculty, by Primary Responsibility, Gender, and Level of Program*

Table 18 further breaks down the responsibilities of social work faculty. It displays the mean percentage of time spent in classroom teaching, field instruction, field liaison, administration, and other social work responsibilities. The proportion of time spent in the different responsibilities is comparable across the two levels. As would be expected, classroom teachers spend far more of their time with classroom responsibilities. However, the means indicate that, no matter what their primary responsibility, all social work faculty spend at least 10% of their time in classroom teaching. Baccalaureate faculty spend far more time in the classroom than do their graduate/joint counterparts. Considering that baccalaureate programs average under five faculty members, it is not surprising that they carry multiple responsibilities.

TABLE 18

Mean Percentage of Time Full-time Faculty Members Assigned to Responsibilities in Social Work Programs, by Primary Responsibility and Level of Program

Level of Program	Primary Responsibility	Mean Percentage Assigned				
		Classroom Teaching	Field Instruction	Field Liaison	Admini-stration	Other

Years on Full-time Faculty

Table 19 displays the number of years social work faculty were reported to have been on full-time status in the social work program. The survey did not specify the definition of "full-time." Unlike previous years, this report combines the ranks reported as instructor, lecturer, and "other." They are reported in Table 19 as "Other." Full professors at the graduate/joint level have spent the most time on the social work faculty. However, when baccalaureate faculty members spend the same amount of time on the full-time faculty as their graduate/joint colleagues, they are more often associate professors. The most striking figure in this table is the number of newly hired faculty in the "Other" category. Over 77% of the graduate/joint faculty and 69% of the baccalaureate faculty hired in 1991 were in this category. This may indicate a tendency of programs to hire more temporary or adjunct faculty. It is also important to note that a disproportionate number of males were hired at the full professor rank. The same holds true for females at the lower ranks.

TABLE 19

Faculty, by Gender, Years on Full-time Faculty, Rank, and Level of Program*

Level of Program	Rank	Gender	Years on Full-time Faculty				
			0	1 - 5	6 - 10	11 & Over	Total

		Female	187	294	99	212	792

* Column totals may not correspond between tables within this report due to variance in response rates.

Tenure

The proportion of full-time social work faculty members with tenure is displayed in Tables 20 and 21. Table 20 shows that, at the graduate/joint level, many more faculty holding tenure hold a doctorate than those who do not. Over half of graduate/joint faculty members hold a doctorate in social work. At the baccalaureate level, just under half of those faculty holding tenure also hold a masters degree in social work as their highest earned degree. Social work faculty holding tenure typically hold an advanced degree in social work. Table 21 shows the highest degree earned, rank, and gender of social work faculty holding tenure. The percentage of males holding tenure in graduate/joint programs has increased slightly, while the same figure at the baccalaureate level remains virtually unchanged.

TABLE 20

Full-time Faculty With Tenure, by Highest Earned Degree and Level of Program*

Salary

Data were gathered on the salaries of full-time social work faculty. Table 22 displays the median salaries and middle 50% range of salaries of non-administrative faculty by rank and region. Medians are reported here because of the wide range of salaries reported. All salaries reported in Table 22 are adjusted to reflect a nine-month academic year. Raw salary data reported for periods other than nine months were increased or decreased proportionately. Medians are shown for regions that reported at least five cases at a particular level. This section of the survey was most often reported inaccurately or not reported at all; therefore, care should be taken when examining data, especially when comparing salary data from year to year.

As would be expected, full professors receive higher salaries than associate professors do; likewise, associate professors receive higher salaries than assistant professors do. Full professors with appointments in graduate/joint programs make 21.3% more than their baccalaureate-level counterparts do. The difference is noticeably smaller at the lower two ranks, with 13.5% and 13.7% between them. The median salaries have increased from last year--4.3%, 6.9%, and 7.3% for graduate/joint full professors, associate and assistant professors, respectively. However, their baccalaureate counterparts experienced only 0.3%, 0.7%, and 1.4% increases for corresponding ranks.

The eastern regions of the country continue to pay the highest salaries. Region 2 (New Jersey, New York, and Puerto Rico) reported median salaries in the top three regions at each level except associate professors at the graduate/joint level where it was fourth-highest. On the other end of the scale, the Rocky Mountain region (Region 8) reported median salaries in the bottom two regions in four of the six categories shown in Table 22.

Table 23 shows the median salaries reported for full-time faculty members according to their primary responsibility within the social work program. One column of salaries displays the actual salaries received by faculty members regardless of the number of months it took them to earn that salary. The other column displays the same salaries adjusted to a nine-month academic year as was done in Table 22. The deans/directors and associate deans/directors at the graduate/joint level report the highest median salary. At the baccalaureate level, field instructors/liaisons reported the highest median salary, but there were only 20 cases reported. The baccalaureate deans/directors had a slightly lower median than the field educators, but reported a greater range of salaries over 176 cases. Of the non-administrative faculty, classroom teachers were highest paid at the graduate/joint level. At the baccalaureate level, field educators reported the highest median salary. At both levels, classroom teachers outnumber the other non-administrative faculty by very wide margins. The ranges need to be interpreted with caution. One of the factors influencing this table is the definition of "full-time" as those faculty members who spend at least 50% of a full-time equivalent on social work responsibilities. Therefore, a $15,000 salary likely belongs to a faculty member who only spends half the time of his/her colleague who has a full teaching load.

TABLE 22

Median Salary and Middle 50 Percent Salary Range of Full-time Non-administrative Faculty, by Geographic Region, Level of Program, and Rank[1]

Rank	Region[2]	Graduate and Joint Programs			Baccalaureate Programs		
		Median Salary[3]	Middle 50% Range	# of Faculty	Median Salary[3]	Middle 50% Range	# of Faculty
Professor	1	$62,244	$51,938 - 72,783	18	$40,673	$38,167 - 46,347	7

* Column totals may not correspond between tables within this report due to variance in response rates.

Table 24 compares the median salaries of full-time non-administrative faculty members, broken down into categories representing ethnicity, gender, highest earned degree, and rank. Past years' statistics have reported only classroom faculty in this table, citing "disparity between the sexes in higher and lower-paying job responsibilities." However, the number of faculty in the other non-administrative categories is so small that they were included this year. In general, female faculty members receive a lower salary than do their male counterparts. Half of the cells displaying median salaries for minority faculty members show medians lower than their white counterparts. Faculty holding masters degrees as their highest earned degree usually have a lower salary than do their colleagues holding the same rank and ethnicity. Comparisons within this table are difficult, given the number of cases reported in each cell.

TABLE 24

Median Salary of Full-time Non-administrative Faculty,
by Ethnicity, Gender, Rank, Highest Earned Degree, and Level of Program*

Level of Program	Rank	Ethnicity	Highest Earned Degree							
			Doctorate				Masters			
			Male		Female		Male		Female	
			Salary---	#	Salary---	#	Salary---	#	Salary---	#
Graduate and Joint	Professor	White	$56,409	207	$54,864	90	$54,864	30	$57,383	6
		Minority	54,864	49	54,339	25	56,551	6	**	3
	Associate Professor	White	43,184	134	43,176	158	45,894	33	39,257	20
		Minority	45,134	46	41,639	48	42,188	17	35,437	14
	Assistant Professor	White	34,577	88	33,995	175	33,350	17	29,550	60

* Column totals may not correspond between tables within this report due to variance in response rates.
** Less than five cases reported.
*** Salary data are adjusted for a nine-month academic year.

Table 25 shows that the main source of faculty salaries remains the university itself. Classroom teachers receive the highest percentage of their salary from inside university sources. Faculty who are involved somewhat with field education receive more of their salary from outside sources, whether at the graduate/joint or baccalaureate level. As noted before, the classroom teachers make up the vast majority of non-administrative faculty, so the means displayed in Table 25 for classroom teachers are a more accurate reflection of this characteristic than the others. With this in mind, the trend from previous years' statistics showing an increase of external funding of university faculty salaries has continued this year.

TABLE 25

Mean Percentage of Non-administrative Faculty Salary from Internal University Sources, by Primary Level of Responsibility, Type of Appointment, and Level of Program

Level of Program	Primary Responsibility	Type of Appointment		Total
		Full-time	Part-time	
Graduate and Joint	Classroom Teaching	98.2	92.5	89.6
	Classroom and Field	77.6	77.4	
	Field Instruction/Liaison	87.8	83.6	
	Other	87.0	56.4	
Baccalaureate	Classroom Teaching	98.0	94.8	95.1
	Classroom and Field	93.8	100.0	
	Field Instruction/Liaison	90.4	88.9	
	Other	93.9	100.0	

Number of Publications

Programs were asked to report on the number of publications that actually appeared in print during the preceding academic or calendar year, whichever year conforms to their record-keeping system. The five categories of publications were defined as refereed articles, books published by formal publishing companies, published book chapters and conference proceedings, monographs, and book reviews. To adjust for multiple authorship, respondents were asked to enter the fraction of authorship undertaken by the faculty member. For example, a faculty member who wrote an article with another colleague would be reported as having written .5 of an article. Blank spaces in this section of the form were interpreted as being equal to zero, although many of these cases simply may be missing data. The ability of the programs to report every faculty member's publication is questionable; therefore, the reliability of this section of the report is not good.

Taken as a whole, on average, faculty members published .30 articles, .04 books, .12 book chapters, .17 monographs, and .08 book reviews. Incomplete data were received on many faculty, so these numbers may be somewhat misleading. Among the group of faculty members who published a total of at least one item ($n=1,139$), an average of 1.22 articles, .18 books, .51 book chapters, .69 monographs, and .32 book reviews were published. It is clear that refereed articles are the publishing medium of choice among social work faculty. Females appear to publish less frequently than do their male counterparts.

BACCALAUREATE STUDENTS

Baccalaureate social work education programs reported on various aspects of their student body on Schedule II. As noted in Table 1, 344 of 375 programs (91.7%) returned data on Schedule II. The tables in this section report data only on juniors and seniors because some programs do not allow students to choose majors until the junior year. Also, due to the November 1 deadline for statistics, many programs do not have access to data showing the major declaration of incoming freshmen. Program data are listed individually in Appendix A in Tables 100 and 101. Again, the Schedules requested different data on the same population. Responses varied within the schedules, so comparison between tables may be unreliable. For instance, one table reporting the number of juniors and seniors enrolled (one section of Schedule II) may not agree with another table reporting that same population's ethnicity (another section of the form).

Table 26 reports junior and senior enrollment in baccalaureate programs. Baccalaureate programs typically have small student bodies. Almost two-thirds of the programs have fewer than 75 juniors and seniors enrolled. Just over half have fewer than 50 juniors and seniors. Distribution across the categories is the similar to last year's statistics, except for the 75-99 and 100-149 categories. There has been a moderate shift from the 100-149 category having 2.9% more juniors and seniors to having 3.6% fewer juniors and seniors enrolled than the 75-99 category. Although this indicates a shift to smaller programs in general, the median junior and senior enrollment size this year was 49, up from 46 last year. As noted in last year's report, until 1984 there was a trend toward declining median junior and senior enrollment size. This trend seems to have halted with this year's data.

TABLE 26

Accredited Baccalaureate Programs, by Size of Full-time Junior and Senior Year Enrollment*

Junior and Senior Enrollment	#	%
Under 25	76	22.4
25 - 49	94	27.7
50 - 74	68	20.1
75 - 99	47	13.9
100 - 149	35	10.3
150 and over	19	5.6
Total	339	100.0

* Column totals may not correspond between tables within this report due to variance in response rates.

The total reported enrollment of full-time baccalaureate social work degree students is 32,777. This reflects an increase of 15.5% over last year. This figure should be interpreted cautiously, however, because 33 accredited programs were not included in last year's report. Freshmen and sophomores accounted for 11,598 of full-time students. Baccalaureate programs reported that 5,416 students are enrolled part-time in their program and 18,462 students are enrolled in one or more social work courses, but not working toward a social work degree. A review of past years' statistics shows that until 1984 there was a steady decline in baccalaureate student enrollment. Enrollment in each of the categories noted above has increased every year since 1984, except in 1989.

The gender breakdown of juniors and seniors and 1990-91 graduates is displayed in Table 27. Females continue represent the majority (85.0%) of baccalaureate students and graduates. This percentage is slightly higher (0.8%) than last year. Interestingly, there was a similar decrease in the percentage of females (1.0%) receiving baccalaureate degrees. Corresponding with the increased enrollments reported, the number of baccalaureate degrees awarded in 1990-91 increased from 7,250 to 8,778, a 21.1% increase.

TABLE 27

Juniors and Seniors Enrolled Full-time in Baccalaureate Programs on 11/1/91
and Students Awarded Baccalaureate Degrees in 1990-91, by Gender

Gender	Juniors and Seniors Enrolled		Students Awarded Degrees	
	#	%	#	%
Female	17,625	85.0	7,601	86.6
Male	3,102	15.0	1,177	13.4
Total	20,727	100.0	8,778	100.0

The ethnic distribution of juniors and seniors and 1990-91 baccalaureate degree recipients is shown in Table 28. The number of ethnic minorities enrolled in baccalaureate social work education and receiving baccalaureate degrees increased again this year. However, while the proportion of minorities enrolled increased by 0.8%, the proportion of minorities receiving baccalaureate degrees decreased by 1.3%. These proportions do not vary greatly from year to year and do not indicate a trend in any direction. Any changes from year to year may be due to the variation of response rates. "African American" continues to be the most frequent ethnic minority identification among those juniors and seniors enrolled in baccalaureate programs, outnumbering the other ethnic minorities by two-thirds. Chicano/Mexican Americans and Puerto Ricans are the next most frequent. Although the survey did not allow the specification of minorities in the "Other" category, many respondents chose to write in various Hispanic ethnic groups.

TABLE 28

Juniors and Seniors Enrolled Full-time in Baccalaureate Programs on 11/1/91
and Students Awarded Baccalaureate Degrees in 1990-91, by Ethnicity*

Ethnicity	Juniors and Seniors Enrolled		Students Awarded Degrees	
	#	%	#	%
African American	3,075	14.8	1,176	13.4
Asian American	318	1.5	109	1.2
Chicano/Mexican American	680	3.3	230	2.6
Native American	296	1.4	89	1.0
Puerto Rican	514	2.5	283	3.2
Other Minority	222	1.1	118	1.3
Total Minorities	5,105	24.6	2,005	22.8
Foreign	89	0.4	56	0.6
White	15,533	74.9	6,717	76.5
Total	20,727	100.0	8,778	100.0

* Column totals may not correspond between tables within this report due to variance in response rates.

GRADUATE STUDENTS

Data on masters and doctoral students were gathered with Schedules III and IV, respectively. Similar data were collected on each form, but only selected sections of Schedule IV were used for this report. Although the Council does not accredit doctoral education, the past practice of collecting data from doctoral programs at the same time masters program data were collected was continued this year. As is true throughout this report, some tables may not correspond with others due to the varying responses to different parts of the survey instrument.

Enrollment

Full-time enrollments in masters programs increased steadily from the mid-1950s to 1978. Table 29 shows that in 1979 full-time enrollments began to fall, bottoming out in 1986 at a 15-year low. Since 1986 programs reported an increasing number of full-time students. This year's record 19,468 full-time masters degree students continues a trend of rapidly increasing enrollment. Part-time enrollment was not affected by the decrease in full-time enrollment in the early 1980s. It has increased steadily and also has hit an all-time high of 10,232. These increases in enrollment are particularly striking in light of the fact that there has not been a 100% response to the annual statistics survey since 1985. This year's enrollments represent an 11.4% increase in full-time enrollment and 2.9% in part-time enrollment from last year's. Part-time students make up 34.5% of all masters programs' enrollments. Further, part-time students outnumber full-time students in 20 of the 101 programs responding to the survey. Forty programs reported that at least 40% of their students are enrolled part-time. It should be noted that the number of accredited masters programs has increased slowly over the years.

Enrollment in doctoral programs increased until 1980 and vacillated somewhat during the next decade. It did, however, mirror the steady decline in masters programs' enrollment in the early 1980s. This year shows a record 1,133 full-time students enrolled in doctoral education. While part-time doctoral students often outnumbered full-time students in the 1980s (and last year), they make up 46.3% of all doctoral students this year. This shows an increase in the number of part-time students over last year, although it does not represent the most part-time doctoral students enrolled in any given year.

TABLE 29

Students Enrolled in Masters and Doctoral Programs 1966 - 1991

Year	Masters Programs	Doctoral Programs	Year	Masters Programs		Doctoral Programs	
	Full-time	Full-time		Full-time	Part-time	Full-time	Part-time
1966	9,335	232	1979	17,397	4,942	954	535

* Response rate of less than 100 percent.

Applications and Admissions to Masters Degree Programs

Applications to masters degree programs in 1991 increased by 19.6% over 1990. Of those, applications to full-time programs rose by 22.7% and applications to part-time programs rose by 12.4%. Programs were more selective this year, accepting 3.4% fewer students for admission than last year. A higher percentage of applicants to part-time programs were accepted and registered than were applicants to full-time programs. Applicants to part-time programs also are more likely to register after they have been accepted by a program.

TABLE 30

Applications for Admission to First-year Status in Masters Degree Programs in 1990 and 1991, by Action Taken

Year	Program	Action							
		Total Received		Considered for Admission		Accepted		Registered	
		#	%	#	%	#	%	#	%

	Total	33,461	100.0	29,824	89.1	19,729	59.0	12,926	38.6
1990	Full-time	19,427	100.0	17,206	88.6	12,025	61.9	7,414	38.2
	Part-time	8,561	100.0	7,516	87.8	5,452	63.7	4,458	52.1
	Total	27,988	100.0	24,722	88.3	17,477	62.4	11,872	42.4

Table 31 displays data concerning action taken on applications for advanced standing status in masters degree programs. The majority of applications (74.5%) for advanced standing came from individuals who held a baccalaureate degree in social work from an institution other than the one to which the application was made. An additional 20.0% of applications were received from graduates of baccalaureate programs under the same auspices as the prospective masters programs. The applicants who choose to stay in the same university from which they received their baccalaureate degree are more likely to be accepted and enroll than are their colleagues who apply to a masters program in a university different from the one which awarded their baccalaureate degree.

TABLE 31

Applications for Advanced Standing Status in Masters Degree Programs in 1991, by Source/Basis and Action

Action	Source or Basis							
	Baccalaureate Social Work Program				Other Education		Total	
	Own School		Other School					
	#	%	#	%	#	%	#	%
Received	769	100.0	2,870	100.0	214	100.0	3,853	100.0
Accepted	576	74.9	1,870	65.2	150	70.1	2,596	67.4
Enrolled	537	69.8	1,333	46.4	106	49.5	1,976	51.3

Degrees Awarded

As would be expected, the number of degrees awarded to students completing masters and doctoral degrees is proportionate to the number of students enrolled at the same time. Therefore, as Table 32 shows, the number of masters degrees awarded until the 1978-79 academic year was increased from year to year. In the 1980s, the number of masters degrees awarded fluctuated up and down, with a general downward trend until the 1986-87 year. This year a record 10,969 masters degrees were awarded, a 9.0% increase over 1990. Since the 1977-78 academic year, every other year has shown an increase in the number of doctoral degrees conferred. Doctoral programs conferred 2 fewer degrees than last year, a figure that has added importance in light of the fact that 100% of the doctoral programs responded this year compared to last year's 93.8% response.

TABLE 32

Graduate Students Awarded Masters and Doctoral Degrees,
Academic Year 1965-66 through 1990-91

Academic Year	Masters Degree	Doctoral Degree	Academic Year	Masters Degree	Doctoral Degree
1965-66	3,693	56	1978-79	10,080*	174*

* Response rate of less than 100%

Demographic Characteristics of Graduate Students

Table 33 displays the gender breakdown of graduate students. Females continue to make up the vast majority of masters degree students (82.4%). The proportion of females to males has increased slightly among full-time students and decreased slightly among part-time students. More males are enrolled in doctoral programs, however, making up one-third of all full-time students. This also represents a slight decrease in the number of males enrolled in full-time doctoral study. Gender distribution is similar for recipients of degrees at the two levels as for those enrolled. Overall, these proportions have not changed much in recent years.

TABLE 33

Full and Part-time Masters and Full-time Doctoral Students
Enrolled on 11/1/91 and Graduate Students Awarded Degrees 1990-91, by Gender*

Gender	Masters Students				Doctoral Students	
	Enrolled			Awarded Masters Degrees	Enrolled Full-time	Awarded Doctoral Degrees
	Full-time	Part-time	Total			
Male	17.2	18.5	17.6	17.8	33.2	32.2
Female	82.8	81.5	82.4	82.2	66.8	67.8
Total	100.0	100.0	100.0	100.0	100.0	100.0
Number	19,288	10,131	29,419	10,969	1,133	245

* Column totals may not correspond between tables within this report due to variance in response rates.

Table 34 displays the age of graduate students enrolled full-time and part-time in graduate social work education. Females aged 25 and under are the largest group among full-time masters students. Part-time masters students are more frequently females aged 31-40. In both full and part-time males are more likely to be in the 31-40 age group. These characteristics are consistent with last year's statistics. At the doctoral level, females are typically aged 41 and over while males are more likely to be in the 31-40 category. Last year female full-time doctoral students were younger, but in general the proportions displayed here are comparable to those of last year.

TABLE 34

Full and Part-time Masters and Doctoral Students Enrolled on 11/1/91, by Gender and Age*

Age	Gender	Masters Students		Doctoral Students	
		Full-time	Part-time	Full-time	Part-time
25 & under	Male	3.5	1.9	1.0	0.0
	Female	28.3	12.5	2.9	0.3
26 - 30	Male	4.3	3.8	3.8	2.3
	Female	17.8	18.6	7.1	5.1
31 - 40	Male	6.0	7.5	14.9	15.2
	Female	19.6	27.5	26.9	27.3
41 & over	Male	3.5	5.3	13.7	14.6
	Female	17.1	22.9	29.8	35.3

	Number	19,152	10,097	1,133	978

* Column totals may not correspond between tables within this report due to variance in response rates.

Ethnic minorities made up 17.7% of full-time and 19.5% of part-time masters degree students (Table 35). There was a slightly higher percentage of minorities enrolled full-time in doctoral programs (21.8%) than last year, but part-time minority doctoral students are less frequent (17.8%) than last year. At both the masters and doctoral levels the proportion of minorities enrolled part-time decreased from last year. There was a slight increase in minority full-time masters students, but a 3.2% decrease was seen at the doctoral level. Persons in the United States on a student visa ("foreign") make up a very small percentage of masters degree students. However, foreign students received 10.2% of the doctoral degrees awarded in 1990-91.

TABLE 35

Concentration of Study

Data were gathered on the primary methods concentration of every masters degree student enrolled in schools of social work. Schedule III did not define any of the "methods of practice categories" or "fields of practice or social problem categories". Programs were asked to place student information in cells that represented "methods" and "social problems". Tables 36 and 37 display that information in two different ways.

Table 36 shows that most masters degree students have or will have declared a methods concentration. Of those, 31.1% have chosen to concentrate only on that particular method of practice. Most students (68.9%), however, study a method of practice in conjunction with a primary field of practice or social problem concentration. "Direct practice" is the most popular method and "generic" practice runs a distant second. The proportions displayed in Table 36 are generally consistent with those reported last year.

TABLE 36

Masters Degree Students Enrolled on 11/1/91, by Primary Methods Concentration*

Methods	Concentration Framework							
	Methods Only		Methods Combined with Field of Practice or Social Prob.		Field of Practice or Social Problem Only (No Methods)		Total	
	#	%	#	%	#	%	#	%
Direct Practice	4,780	54.6	10,449	53.8	---	---	15,229	52.9

* Column totals may not correspond between tables within this report due to variance in response rates.

Table 37 displays the distribution of students who are studying a particular field of practice or social problem concentration. Mental health continues to be the concentration taken by the most masters degree students (11.2%). Family services, health, and child welfare (in that order) are runners-up. Very few students choose other concentrations. Overall, there was no noticeable change between the concentrations from 1990. Over half of masters degree students were reported as either having not yet determined their social problem concentration or only concentrating on a method. A 4.4% increase in the percent of students with their concentration not yet determined is shown this year.

TABLE 37

Masters Degree Students Enrolled on 11/1/91, by Primary Field of Practice or Social Problem Concentration*

Type of Concentration	#	%
Aging/Gerontological Social Work	713	2.4
Alcohol, Drug or Substance Abuse	299	1.0
Child Welfare	1,875	6.4
Community Planning	247	0.8

Total	29,368	100.0

* Column totals may not correspond between tables within this report due to variance in response rates.

Concentration of Field Instruction

Although students may choose to study a particular field of practice or social problem, the location of their field instruction may not correspond with their study concentration. Table 38 shows the primary field of practice in which masters students were placed on November 1, 1991. The most frequent concentrations in this table are the same as in Table 37, but many students who may study in one social problem area may work in another field of practice in their practicum. Mental health claims 16.2% of field placements. Following mental health, health, family service, and child welfare lead all the other fields of practice. Over one-third of masters students either were not yet assigned field instruction on November 1, 1991 or were not to be in field instruction this year.

TABLE 38

Masters Degree Students Enrolled on 11/1/91, by Primary Field of Practice in Field Instruction*

Type of Concentration	#	%
Aging/Gerontological Social Work	899	3.1
Alcohol, Drug or Substance Abuse	799	2.7
Child Welfare	2,114	7.2
Community Planning	460	1.6
Corrections/Criminal Justice	447	1.5
Family Service	2,598	8.8
Group Services	341	1.2
Health	2,833	9.6
Occupational/Industrial Social Work	273	0.9
Mental Health or Community Mental Health	4,763	16.2
Mental Retardation	272	0.9
Public Assistance/Public Welfare	296	1.0
Rehabilitation	242	0.8

Other	1,390	4.7
Not Yet Assigned Field Instruction	3,986	13.6
Not in Field Instruction This Academic Year	6,324	21.5
Total	29,368	100.0

* Column totals may not correspond between tables within this report due to variance in response rates.

Financial Aid

As noted in Table 39, one-quarter of full-time graduate students receiving financial aid in 1991 were members of an ethnic minority group. A slightly higher percentage of doctoral students who are minorities received financial aid. Of those minorities receiving financial aid, over half were African American. An additional column to last year's table is included this year. It shows the proportion of those full-time students receiving financial aid to the number of students enrolled full-time. As throughout this report, comparisons between tables should be made with caution. Among masters students, 83.2% of Puerto Ricans and 80.8% of African Americans received financial aid. Almost three-quarters of all ethnic minority graduate students received financial aid as of November 1, 1991. At the doctoral level, small numbers of minorities enrolled full-time make it difficult to interpret accurately the percentage of students receiving financial aid within any ethnic minority category. However, it is clear that the African American category has a very high proportion of students within that category receiving financial aid. Because of the small numbers at the doctoral level, a year to year comparison of these percentages is not very reliable. At the masters level it can be noted that the proportion of full-time students receiving financial aid to those who do not has dropped slightly for minorities (from 79.2 to 72.4) and for all students (from 52.5 to 51.2) between 1990 and 1991.

TABLE 39

Full-time Masters and Doctoral Students Receiving Financial Grants on 11/1/91, by Ethnicity*

Ethnicity	Masters Students			Doctoral Students		
	#	Cum. %	% of all in category	#	Cum. %	% of all in category
African American	1,421	14.4	80.8	116	17.4	84.7
Asian American	255	2.6	63.3	15	2.2	44.1
Chicano/Mexican American	268	2.7	56.1	20	3.0	90.9

* Column totals may not correspond between tables within this report due to variance in response rates.

Table 40 shows the different sources of the financial aid received by full-time masters and doctoral students on November 1, 1991. This represents all awards made, regardless of number of sources. Therefore, if one student represented in Table 39 received an award from three different sources, that student would be counted as three in this table. Schedule III contained a typographical error that allowed data entry on a line under the general heading "Federal Government." Data entered under this line were included in Table 40 under "Public Funds, Other."

Students receiving financial aid from sources other than their field placement received it most often from formal loan programs, followed by their school or university. Other sources were infrequent in comparison. Among those awards given by a student's field instruction agency, social welfare agencies and state or local governments were the most frequent. Federal work study programs, other work study programs and private foundations each gave at least 10% of financial aids awarded to field students. As would be expected, more doctoral awards were given by a student's school or university (45.3%) and by research or graduate assistantships (29.3%) than all the other sources combined. The sources of financial aid for graduate social work education have not greatly varied from year to year.

TABLE 40

Financial Grants Awarded to Full-time Masters and Doctoral Students on 11/1/91, by Source of Funds

Source of Funds	To Masters Students						To Doctoral Students

Student-Faculty Ratio

Table 41 displays the student-faculty ratios for masters and doctoral programs. For the purpose of calculating ratios, full-time students were counted as one and part-time students were counted as one-half. Faculty were counted according to the amount of time they spent at the masters and doctoral level. For instance, faculty members who spend 100% of their time in social work, but split their time between the masters program and the doctoral program, 50% would be counted toward the masters ratio and 50% to the doctoral ratio. Likewise, part-time faculty members who spend 30% of their time in social work and split it between the two programs, 15% would go to masters and 15% to doctoral. Masters programs reported a larger student-faculty ratio with a median of 13.1:1. The modal ratio group (12:1-14:1) for masters programs in Table 41 corresponds with the median. Doctoral programs have a smaller median student-faculty ratio at 10.8:1. However, the modal ratio group (15:1 and over) is well above that of the median. At both levels the median student-faculty ratio is up about one point from last year.

TABLE 41

Student-Faculty Ratio in Masters and Doctoral Programs on 11/1/91*

Student-Faculty Ratio	Masters Programs		Doctoral Programs	
	#	%	#	%
Less than 6:1	1	1.1	3	6.7
6:1 - 8:1	12	13.2	13	28.9
9:1 - 11:1	24	26.4	9	20.0
12:1 - 14:1	28	30.8	5	11.1
15:1 and over	26	28.6	15	33.3
Total	91	100.0	45	100.0
Median	13.1:1		10.8:1	

* Column totals may not correspond between tables within this report due to variance in response rates.

PROGRAMS IN CANDIDACY FOR ACCREDITATION

The characteristics of programs in candidacy status for accreditation have not changed greatly since last year. Thirty-seven programs were polled to determine the ethnic and gender identification of their graduates. Of those 37 programs, there were 2 stand-alone graduate programs, 24 stand-alone baccalaureate programs, 10 graduate programs jointly administered with baccalaureate programs, and 1 baccalaureate program jointly administered with an accredited masters program. As noted in Table 1, 32 programs responded to Schedule V. Table 42 shows that baccalaureate programs reported 353 graduates and masters programs reported 223 graduates. Because of the small numbers reported, it is difficult to state trends with reliability. However, it is clear that African American females greatly outnumber members of other ethnic minority categories graduating from baccalaureate programs in candidacy. The proportion of minorities graduating from baccalaureate candidacy programs is similar to that of fully accredited programs (20.3%). Masters programs in candidacy status graduated only 10.8% minorities, compared to nearly double that for fully accredited programs.

TABLE 42

Students Awarded Degrees in Programs in Candidacy 1990-91, by Ethnicity and Gender

Ethnicity	Baccalaureate Programs			Masters Programs		
	Male	Female	Total	Male	Female	Total
African American	5	55	60	1	7	8
Asian American	1	1	2	0	0	0
Chicano/Mexican American	2	1	3	2	8	10
Native American	0	6	6	1	5	6
Puerto Rican	0	0	0	0	0	0
Other Minority	0	0	0	0	0	0
Total Minorities	8	63	71	4	20	24
Foreign	0	0	0	1	3	4
White	35	247	282	28	167	195
Total	43	310	353	33	190	223

RECENT TRENDS IN SOCIAL WORK EDUCATION

Tables 43 and 44 display selected characteristics of social work education over the last five years. General trends may be seen in these displays, but they must be interpreted with caution. During the last eight years, the response rate has not been 100% on any schedule except for the doctoral surveys, which were 100% in 1988 and this year. As noted earlier, response rates to specific items also vary within schedules.

Table 43 shows trends in baccalaureate programs. The total number of programs, faculty, enrollments, and graduates all show a steady increase. The proportion of women and doctorates on baccalaureate faculties is increasing slightly. The decline in the proportion of minority faculty noted in last year's report seems to have stopped this year. The proportion of women enrolled in baccalaureate programs appears to be creeping up while the proportion of ethnic minorities enrolled is steady.

An analysis of trends in graduate social work education (Table 44) is not as simple or reliable as that of baccalaureate education primarily because there are more than three times as many baccalaureate programs. The most obvious trends compare with those of the baccalaureate programs. The total number of programs, faculty, full and part-time students, and graduates have steadily increased. The proportion of the different professorial ranks varies from year to year, but has not changed a great deal. The proportion of females and minorities on faculties has increased recently, as has that of female associate professors. There has been a large drop in the proportion of minorities who are assistant professors and a smaller decrease among associate professors. Salaries have increased between 18 and 20 percent over the past 5 years. All statistics for masters students have shown an increase recently. The only decrease shown is in the percent of applications accepted for first-year status in masters degree programs. Doctoral programs have shown an increase in enrollment and graduation, but the proportions of women and minorities vary too much to establish a pattern.

TABLE 43

Highlights of Recent Trends in Baccalaureate Social Work Education

	1987	1988	1989	1990	1991

Baccalaureate Programs

100. Number of Juniors and Seniors, by Gender and Ethnicity, and Number of Freshman and Sophomore Full-time Degree Students Enrolled in Baccalaureate Programs on 11/1/91 49

101. Students Awarded Baccalaureate Degrees Academic Year 1990-91, by Gender and Ethnicity 57

Masters Programs

200. Applications for Admission to First-year Status in Full-time Masters Degree Programs During 1991, by Action Taken 65

201. Applications for Admission to First-year Status in Part-time Masters Degree Programs During 1991, by Action Taken 68

202. Applications for Admission to Advanced Standing Status in Masters Degree Programs During 1991, by Action Taken 71

203. Full-time Masters Degree Students Enrolled on 11/1/91, by Ethnicity 73

204. Full-time Masters Degree Students Enrolled on 11/1/91, by Age and Gender 75

205. Masters Degree Students, by Primary Methods Concentration 77

206. Masters Degree Students, by Primary Field of Practice or Social Problem Concentration 80

207. Masters Degree Students, by Primary Field of Practice in Field Instruction 83

208. Full-time Masters Degree Students Receiving Financial Aid Not Tied to Current Field Instruction, by Source of Funds 86

209. Full-time Masters Degree Students Receiving Financial Aid Paid Directly by Field Instruction Agency, by Source of Funds 89

210. Unduplicated Count of Full-time Masters Degree Students Receiving Financial Aid From All Sources and Number of Grants Awarded 92

Doctoral Programs

300. Number of Faculty Assigned 50 Percent or More Time to Social Work Program, by Percentage of Time Assigned to Doctoral Program 93

Page

301. Full-time Doctoral Students Enrolled on 11/1/91, by Ethnicity 94

302. Full-time Doctoral Students Enrolled on 11/1/91, by Age and Gender 95

303. Applications for Admission to Doctoral Degree Programs During 1991, by Action Taken 96

304. Full-time Doctoral Students Receiving Financial Aid and Number of Grants Awarded, by Source of Funds 97

305. Unduplicated Count of Full-time Doctoral Degree Students Receiving Financial Aid From All Sources and Number of Grants Awarded 99

Other Tables

400. Full-time Masters and Doctoral Students Enrolled in Social Work Programs, 1982 through 1991 100

401. Students Enrolled on 11/1/91, by Type of Enrollment 102

402. Students Receiving Degrees During Academic Year 1990-91, by Degree and Gender 104

403. Number of Full-time Non-administrative Faculty Assigned 50 Percent or More Time to Social Work Program, by Gender, Type of Appointment, and Academic Responsibility 105

404. Ethnic Characteristics of Full-time and Part-time Graduate Faculty 108

APPENDIX B

Baccalaureate Social Work Degree Programs Accredited by the Council on Social Work Education 1990-91

Alabama

Alabama A & M University
Social Work Program

Alabama State University
Social Work Program

Auburn University
Department of Sociology,
Anthropology and Social Work

Oakwood College
Social Work Program

Talladega College
Social Work Program

Troy State University
Social Work Program

Tuskegee University
Department of Social Work

University of Alabama, Birmingham
Department of Social Work

University of Alabama, Tuscaloosa
School of Social Work

University of Montevallo
Social Work Program

University of North Alabama
Social Work Department

Alaska

University of Alaska, Anchorage
Social Work Program

University of Alaska, Fairbanks
Social Work Program

Arizona

Arizona State University
School of Social Work

Northern Arizona University
Social Work Program

Arkansas

Arkansas College
Social Work Program

Arkansas State University
Department of Sociology,
Social Work and Geography

Harding University
Department of Behavioral Sciences

University of Arkansas, Fayetteville
Social Work Program

University of Arkansas, Pine Bluff
Department of Social and
Behavioral Sciences

California

Azusa Pacific University
Department of Social Work

California State Polytechnic University
Department of Social Work

California State University, Chico
Department of Sociology
and Social Work

California State University, Fresno
Department of Social Work Education

California State University, Long Beach
Department of Social Work

California State University, Los Angeles
Department of Sociology
and Social Work

California State University, Sacramento
Division of Social Work

La Sierra University
Social Work Program

Pacific Union College
Social Work Program

San Diego State University
School of Social Work

San Francisco State University
Department of Social Work Education

San Jose State University
School of Social Work

Whittier College
Social Work Program

Colorado

Colorado State University
Department of Social Work

University of Southern Colorado
Social Work Program

Connecticut

Sacred Heart University
Department of Sociology, Social Work
and Criminal Justice

Southern Connecticut State University
School of Social Work and Human Services

St. Joseph College
Social Work Program

Western Connecticut State University
Social Work Program

Delaware

Delaware State College
Department of Social Work

District of Columbia

Catholic University of America
National Catholic School of Social Service

Gallaudet University
Department of Social Work

Howard University
Social Work Program

University of the District of Columbia
Department of Social Work

Florida

Florida A & M University
